

## Maple Shelter

The Maple is one of our larger shelters, giving access from both sides, ideal as cycle and/or motorcycles store, or a covered area for lockers.

The standard shelter is 4m long, this can be increased to 5m without additional end frames, or have modules added to give the desired length. The maple also has the option of guttering with integrated down pipes.

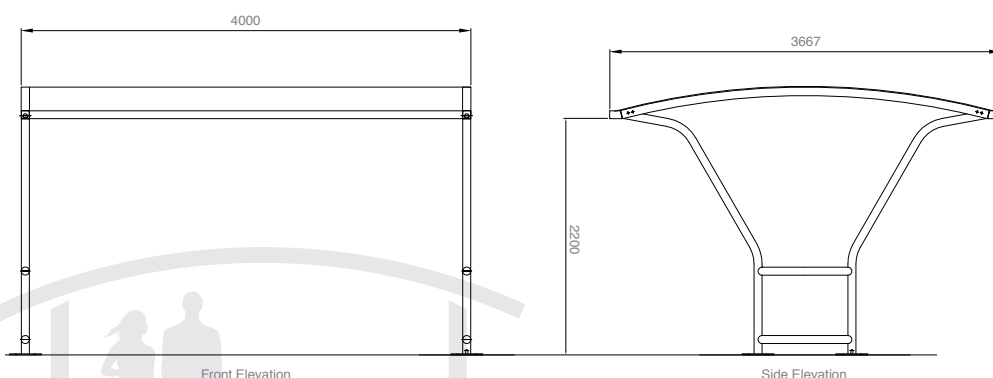

The Maples' end frames are fully welded tubular fabrications manufactured from structural grade mild

steel. Finishing options and installation options are listed below. (Shelter does not come supplied with cycle racks)

### Available Extras

- 5 Hoop Cycle Rack
- Double Tier Rack
- Pram Rail
- Helmet Lockers
- Solar Lights
- Gates
- Digi Locks
